Education

Bennett University, Greater Noida 2024 – 2027
Bachelor of Computer Applications, specialization in Artificial Intelligence CGPA: 8

Ho Chi Minh City University of Technology (HCMUT), Vietnam Aug 2026 – Jan 2027
Semester Exchange Program

Experience

Iris Software Jun 2026 – Jul 2026
.NET Intern – Consultant

- Contributed to the full-stack migration of a production Project Initiation Note (PIN) Management System from a legacy platform to ASP.NET Core 8 and Angular 17, supporting project creation, approval workflows, and reporting.
- Developed RESTful API controllers using ASP.NET Core 8 and implemented Entity Framework Core data models following Domain-Driven Design (DDD) principles.
- Built and integrated Angular 17 frontend modules for project initiation, data management, and workflow operations.

Measure Practice Management Jun 2025 – Jul 2025
QA Automation & .NET Development Intern

- Automated web application testing using Python, Selenium, and Pytest.
- Executed automated test cases, improving testing efficiency and reducing manual effort.
- Assisted in backend development using .NET MVC, C#, and SQL.

Projects

Bhoomi - Smart India Hackathon Project
Python — Next.js — FastAPI — ResNet-101

- Built a WebGIS platform for satellite-based land analysis and document digitization
- Implemented ResNet-101 segmentation for automated land classification
- Designed analytics dashboard reducing claim processing time by 2.3x
- Smart India Hackathon — Internal Round Cleared (#30 / 600+ teams)

Rakshak - AI-Based Public Safety System
Python — YOLO — TensorRT — FastAPI

- Developed a real-time AI surveillance system to detect violence, fire, and medical emergencies from live CCTV feeds
- Implemented YOLO-based detection optimized with TensorRT, applying confidence and IoU thresholding for accurate, low-latency inference
- Designed an end-to-end pipeline for anomaly detection, classification, and severity-based alert triggering using consecutive frame analysis
- Optimized performance using asynchronous processing and frame-skipping to achieve real-time GPU inference

Leadership / Extracurricular

Chief Operating Officer Aug 2025 – Present
Artificial Intelligence Society

Head of PR & Communications Feb 2025 – Jan 2026
Statopia

Sub-Head of PR & Sponsorship Aug 2025 – Nov 2025
Sports Committee

Core Member Sep 2024 – Aug 2025
SCSET Student Cabinet

Captain — School Basketball Girls Team 2017 – 2019
Delhi Public School

Lead — School Newsletter “Feathers of Birds” 2018 – 2020
Delhi Public School

Technical Skills

Languages: Python, Java

Frameworks / Tools: FastAPI, Next.js, Selenium, LangChain, .Net MVC, SQL

Concepts: AI/ ML, Neural Networks, Data Analysis

Community Engagement

- Contributed to fundraising, social media outreach, and awareness initiatives through NGOs such as Muskurahat Foundation, Kiran Foundation, Aashman Foundation, and SSCF Gurgaon.

Achievements

- Smart India Hackathon — Internal Rank 30
- Special Project Appreciation — Bennett University Project Showcase
- Selected among the Top 10 undergraduate teams across India for the Final Round of the National GOER 2026 Competition
